Students are expected to use the target language. Personal expression and creative language is always encouraged. Cultural understanding is promoted through projects about target cultures. Videos, music, and games as well as student reports are all used as multimedia education tools. Oral and written communication is encouraged through the use of selected readings, daily log writings, and discussions.

HOMEWORK

It is the student's responsibility to prepare him/herself for weekly vocabulary and grammar quizzes. The student must also complete regular assignments outside of class including memorizing vocabulary utilizing new grammar concepts and special projects.

25% projects.

To earn full credit students must take all exams and turn in all assignments and homework.

INDIVIDUALIZATION

As the class is fairly small, and since language is learned through communication, students will be encouraged to work as a group. The teacher will give individual attention to students who appear to have some difficulties. For the students who might be ahead of the group, additional readings or dialogues will be assigned. Advanced students may also be asked to tutor students who need help.

ABSENCES/TARDIES

Students are required to come to class regularly since learning a foreign language is a constant step-by-step learning process. Excessive absences and/or tardies may cause the student to be dropped from the class.
